

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office  
FLOOR DEBATE

February 28, 2002 LB 600A

figure out, it won't help my district at all. In fact, I think it will hurt. Their valuation would go up almost 11 percent. And I can't, in good conscience, support this bill in light of the fact that oh, we're going to lose all this money to state aid to education, and who is going to make that up after we lose all this money to state aid? It's just too expensive and it's not going to help my district, and that's my explanation for this bill to those outside in the lobby and to those on this floor. Thank you, Mr. Speaker.

SPEAKER KRISTENSEN: Senator Chambers.

SENATOR CHAMBERS: Mr. President, members of the Legislature, I must now do battle. I am going to move to kill this A bill or else amend it to add \$29 million. The game playing time is over and it's time to lay the cards on the table. Senator Robak was misled because she doesn't know what the deals are that have been cut. And I'm not going to disclose all of the deals, but there have been deals. And Senator Coordsen is going to be the one left with an empty sack when it's over, and what he needs to do, well, he can do whatever he wants to. But it would be good to get a list of all those who voted and see if they vote all the way across the floor; and if they fall off, you should ask them why? Why did you support it to Select File and you won't support it now? It's not that something happened after the bill got to Select File. It's that something happened before it got to Select File, and what I'm going to do, Senator Coordsen, is look at the vote that you got, then I'm going to look at the vote on the casino bill. And I'm going to compare the votes, and I'm going to see just how far people will go when it comes to something as serious as a bill like this. Senator Robak said that the people outside the Chamber in the lobby, and people inside said the bill was not going anywhere. I don't believe it is going to go beyond this because people don't have the backbone to stick by what they did, but let us say that they do. And let's say, by some happenstance, the Governor signs it. What becomes of the \$29 million shift? Who is going to pay it? I cannot understand how in the shadow of the budget bill a vote such as this will have been taken. So what I'm going to offer by the motion that I have up there is a chance for everybody to get something. You have advanced the bill and you are not going
